

Python cache files

`pycache/ *.py[cod] *$py.class`

Virtual environments

`venv/ env/ ENV/ .venv/`

Log files (Ignore the log file so it doesn't get pushed to GitHub)

`security.log`

Database files (Optional: uncomment if you don't want to upload test users)

`users.json`

`blacklist.json`

Mac/Windows system files

`.DS_Store Thumbs.db`
